

Cosactive Asiatica

The concentrated power of Centella Asiatica

Cosactive Asiatica – The concentrated power of Centella Asiatica

With **Cosactive Asiatica**, we rely on a highly effective complex of active ingredients from Centella Asiatica extract – a proven multi-talent in modern cosmetics.

Our combination of active ingredients, including **asiaticoside**, **madecassic acid** and **asiatic acid**, brings together the plant's key substances in an optimal balance for a targeted effect on the skin:

Regeneration & repair

Promotes wound healing and stimulates collagen synthesis – ideal for mature, sensitive or damaged skin.

Anti-inflammatory & soothing

Reduces skin redness and strengthens the skin barrier – even for skin prone to neurodermatitis or rosacea.

Antioxidant protection

Protects the skin from oxidative stress and supports the natural skin balance.

Name	Substance class	Short profile
Asiaticoside	Pentacyclic triterpene saponin glycoside	Stimulates collagen I and III formation, improves elasticity
Asiatic acid	Aglycone (free acid)	Antioxidant, protects against MMP-induced collagen degradation
Madecassic acid	Aglycone (free acid)	Promotes granulation and epithelialisation, reduces scarring

Process

Ideally, Cosactive Asiatica should be added to the active ingredient phase at below 40°C.

Recommended concentration

0.25-2%

INCI

Asiaticoside,
Madecassic Acid,
Asiatic Acid

Cosactive Asiatica – The concentrated power of Centella Asiatica

Cosactive Asiatica is ideal for modern, dermatologically oriented care products – from repair serums to soothing after-sun formulations.

- Vegan
- Powder
