

Cosactive ChamoApi

Soothing care from chamomile

Cosactive ChamoApi is a highly effective plant extract that combines the natural benefits of **apigenin** – a bioactive flavonoid – and the proven **Chamomilla Recutita (Matricaria) Flower Extract**. This combination makes it an ideal active ingredient for sensitive, stressed or irritated skin.

Plant synergy for skin balance

Apigenin, known for its **anti-inflammatory**, **antioxidant** and **skin-soothing properties**, supports skin regeneration and protects against oxidative stress. Chamomile flower extract complements this with its **soothing and balancing effect**, especially on redness or irritation.

Benefits at a glance

- ✓ Anti-inflammatory
- ✓ Soothing & irritation-relieving
- ✓ Antioxidant cell protection
- ✓ Plant-based & gentle on the skin

Processing

Ideally, Cosactive ChamoApi should be added to the active ingredient phase at below 40°C.

Recommended concentration

1-5
